---

Born in Bogota, Colombia, Aleja Sanchez has been active in the techno scene since 2007. A mental and deep but forceful sound combined with a natural penchant for experimental and diverse soundscapes with raw lines have laid the foundations for her to develop a highly unique musical voice into the International techno circuit.

This aesthetic applies to her DJ sets and explains why she has been invited to direct the booths in places like Tresor.Berlin (Germany), Stardust (Spain), Razzmatazz (Spain), Perpetum (Czech Republic), Flex (Austria), Sound Department (Italy), Liquid Club (Malta), Dissident (Russia), Khidi (Georgia) among others.

In 2018, Aleja Sanchez was invited for Boiler Room to be part of the famous streaming in its first version in Medellin, Colombia. In the same year was invited to participate as panelist in Bogotá 24/7, event organized by Resident Advisor in seven cities around the world.

As producer, Aleja Sanchez is not only a regular contributor to Nachtstrom Schallplatten, Planet Rhythm and Ovunqve but also a fundamental piece of Illegal Alien Records and the label head of Northallsen records. With an experimental hypnotic and fused techno and a gentle and melancholic ambient current she reveals her stylized and unique sound.

Deepness, quality and versatility are characteristics of Aleja Sanchez who always strives to create a unique dialogue between the environment, techno and experimental electronics, carefully curated and skillfully organized in a unique and sonorous landscape both in the studio and behind the decks.
