Hotel for one night (or equals amount of days depending on booking).

One meal / day

Breakfast

Free drinks.

Technical needs:

In the dj-booth is required:

When playing just a DJ-set:

- A pioneer mixer (at least DJM250MK2 or higher model).
- Two CDJ's (XDJ700 or higher).
- Double monitoring speakers
- A free wall outlet.
- Bottle of water

When playing a hybrid setup with Ableton and Traktor:

- Free space on a desk (at normal height) of at least: width 64cm x depth46cm x 21,5 cm.
- I'll bring everything I need in a flightcase.
- Double monitoring speakers
- My own mixer output has:
 - Master: male XLR (so I need a female XLR to the AMP)
 - Booth: female RCA (so I need a male RCA to AMP)
- *important: if there's **no second AMP** at the venue, I will connect **my mixer output** with a female XLR to RCA to connect **to an already installed clubmixer** and **use only 1 channel** from the mixer.
- A free wall outlet
- Bottle of water
